APPOINTMENT OF DIRECTOR

Galileo Mining Ltd (ASX:GAL, "Galileo" or the "Company") is pleased to announce the appointment of highly experienced mining lawyer Cecilia Camarri as an Independent Non-Executive Director of the Company.

Cecilia is Special Counsel at a WA law firm and has extensive experience specialising in the mining industry. Cecilia acts as a legal adviser to private and listed mining companies and has both operational and management experience.

She began her mining career in 1996 at the historic Great Fingall Gold Mine at Day Dawn near Cue in WA. Following this Cecilia undertook community and public relations management roles at the Super Pit / Mt Charlotte underground mine and Alcoa's Wagerup Refinery before becoming a lawyer.

Cecilia has acted for many WA based exploration and mining companies and was the In-House Counsel for the Creasy Group between 2012 and 2016.

Cecilia has a Bachelor of Laws, a Graduate Diploma in Journalism, a Bachelor of Arts, and is a member of the Australian Institute of Company Directors.

Galileo's Managing Director Brad Underwood said *"We are delighted to welcome Cecilia to the board of Galileo. She has outstanding expertise as a mining lawyer and a deep industry network which will assist the Company as we look to transition from pure exploration to resource development at our recent Callisto palladium discovery."*

Competent Person Statement

The information in this report that relates to Exploration Results is based on, and fairly represents, information and supporting documentation prepared by Mr Brad Underwood, a Member of the Australasian Institute of Mining and Metallurgy, and a full time employee of Galileo Mining Ltd. Mr Underwood has sufficient experience that is relevant to the styles of mineralisation and types of deposit under consideration, and to the activity being undertaken, to qualify as a Competent Person as defined in the 2012 Edition of the “Australasian Code for Reporting of Exploration Results, Mineral Resources and Ore Reserves” (JORC Code). Mr Underwood consents to the inclusion in the report of the matters based on his information in the form and context in which it appears.

With regard to the Company’s ASX Announcements referenced in the above Announcement, the Company is not aware of any new information or data that materially affects the information included in the Announcements.

Authorised for release by the Galileo Board of Directors.

About Galileo Mining:

Galileo Mining Ltd (ASX: GAL) is focussed on the exploration and development of palladium, nickel, copper, and cobalt resources in Western Australia. GAL’s tenements near Norseman are highly prospective for palladium-copper-nickel sulphide deposits as shown by the Callisto discovery. GAL also has Joint Ventures with the Creasy Group over tenements in the Fraser Range which are prospective for nickel-copper sulphide deposits similar to the operating Nova mine. GAL’s Norseman Project contains a near surface laterite deposit with over 26,000 tonnes of contained cobalt, and 122,000 tonnes of contained nickel, in JORC compliant resources (see JORC Table below).

JORC Mineral Resource Estimates for the Norseman Cobalt Project (“Estimates”) (refer to ASX “Prospectus” announcement dated May 25th 2018 and ASX announcement dated 11th December 2018, accessible at <http://www.galileomining.com.au/investors/asx-announcements/>). Galileo confirms that all material assumptions and technical parameters underpinning the Estimates continue to apply and have not materially changed).
